Xmas Decorating Contest For Brookside

A Christmas decorating contest among the residents of Brookside with several hundred dollars worth of prizes for the winners will culminate December 23rd according to Frank L. Foster, 3541 Fairway Dr., president of the Brookside Improvement Organization.

It is expected some thirty or more homes will take part in the contest with prizes ranging from \$25 nursery merchandise orders to a year's subscription to the REVIEW.

Editors of the various newspapers in this area will act as judges and they will be accompanied by members of the Organization board. The judging committee will then meet at Foster's home and hand down their decision.

The Improvement Organization consists of 15 directors in addition to the executive committee. These are Foster, president; Paul Culey, vice president; and Mary Jane Parkinson, secretary-treasurer.

Fred Ferguson Passes At 95

Fred Ferguson, one of Lemon Grove's very first residents passed away recently in Los Angeles where he had been staying with his nephew, Mr. R. F. King.

Ferguson was 95 years old and had spent most of his eventful life right here in Lemon Grove. He and his wife had watched Lemon Grove grow from its earliest stages. His wife passed away a year ago in November.

In his time, Fred had been in many movies and books have been dedicated to him. He sponsored horse shows and he also participated in many of them as proved by his large collection of trophies. At the last Lemon Grove horse show he won a prize for being the oldest father. Fred rode with many famous people years ago including William S. Hart. He had one of the largest horse ranches in the country at one time.

Mr. Harold Strawn, a Helix High School teacher, has been given the distinction of having a Pedestal Ceramics Bowl accepted for the Syracuse (New York) National Art Exhibit. Exhibitors include all outstanding potters who are interested in reduction firing. Reduction firing was practiced by the ancient Chinese who were noted for their fine ceramics. The beautiful celadons, iron blacks and lovely ox blood reds are obtained by this process. It is a new art in the U. S.

Nativity Scene Set For This Week

Attention this week is being centered on the Kiwanis sponsored Nativity Scene being set up in the park area, mid-town, Lemon Grove.

Members of the Congregation, Baptist, and Trinity Presbyterian Churches designed the costumes, planned the tableau and are furnishing the choral background.

The manger and corral and other settings are being constructed by Ray and Dewey Carmody, well-known and popular local businessmen.

A lamb is being supplied and cared for by Harmon Russell. Programs will be held this week on Friday and Saturday nights. Next week programs will be held on Monday and Tuesday. These programs will start at seven o'clock and will last about an hour. All residents of Lemon Grove are invited to take part in the singing.

Nearly 90 percent of all telephones in California have been converted to dial operation, according to the National Telephone Directory.

STORES OPEN TILL 9 P. M.

Nine o'clock has been set as a closing hour for business places from now through December 23rd, local firms emphasized today. These hours were decided upon to offer shopping convenience hitherto available only in other communities.

Because of the Grove's ample parking facilities it is not necessary to go through the rigors of parking ticket validation as it is elsewhere.

Area shoppers, finding the Lemon Grove shopping area adequate are showing pleasure at not having to fight the holiday traffic downtown and back.

Practically every business house has been decorated in a Christmas spirit and a gala holiday air greets late shoppers.

MIL'S MUSINGS

By Richard Milbrot

WASHINGTON WIRE: The word is out that tentative approval has been made for the construction of a new post office for Lemon Grove.

The night of the recent school election, John Dail, proponent of unification, held a gathering at his house to hear election returns. After the first returns were reported, what was originally billed as a "Victory Celebration" suddenly turned into a wake and the guests that were eating the main course — turkey — suddenly found that it had turned into a crowd. We apologize for mentioning the election, but we just couldn't pass this item up.

While Lemon Grove boasts the "tallest Christmas Tree in the County," we also have the longest Christmas Tree Lane in the County — if not the state. In the 3 mile stretch between Imperial and Home Ave on Broadway, we counted 9 tree merchants. If stacked side by side, the wares on display would probably make

The Kiwanis-Church sponsored scene of Nativity display in the park-area in the railway right-of-way lends a holy air as shoppers stream along the business streets.

In the Justice court, Judge Jean Ratelle turned the eye of leniency on citizens who became fouled with the law during the holiday season.

All churches are planning programs in keeping with birth of the Holy One.

In other ways other persons are lending to the spirit of the holidays ahead. Those who cannot display trees and lights are showing it with their hearts.

In all, it looks like the biggest Christmas ever for Lemon Grove.

A solid line for this entire district, if stacked side by side, the wares on display would probably make

Moral: Who said that tree on display would probably make

Nearly 200 guests, described as "active on both sides" of the recent and various unification plans, attended a "Friendship Feast" at the sprawling and charming home of Mrs. Randell Hamlin, 9233 Grossmont Avenue, Sunday.

The spaghetti dinner was delicious and guests followed the requested format of "no unification discussion."

"We wanted persons on each side of the fence to meet those on the other," said the hostess. About a dozen Grovans were among the guests.

Lemon Grove presumably has the tallest Christmas tree in the County. At least no other community has challenged the claim.

In spite of the fact that this challenge was carried on local and Los Angeles radio stations and in a third page feature, with pictures, in the San Diego newspapers, not even a question as its supremacy has been voiced.

The tree, judged by its owner, Tony Sonka, to be 115 feet high, was decorated by Al Hunt, operator of the firm that decorated most of the streets in the San Diego area. The expense was underwritten by local professional and business men. Harry Griffin's medical building is supplying the electricity.

The project was carried out through Chamber of Commerce committees from an idea generated from Dick Paden, operator of the Grove Department Store.

The Chamber, reluctant to take on the project, nevertheless named a committee at a meeting set for a presidential election. This committee immediately became one of the smoothest functioning in the recent history of the organization.

Sparked by Jim Pearce, Dr. Donald Johnson, Mrs. H. Irving Venier, Bob Gaudin, Roy Nielsen, Wayne Johnson and Max Goodwin, collections for the tree were completed in record time and viewers from all parts of the county were streaming in to see what the "tallest" tree looks like.

Two other records are believed to have been broken by the project. One is the length of time from conception of the idea to completion, one week. The other is the record breaking plans Grove business people have started discussing for next year's decorations. Already, there is a move afoot to have a committee of the Chamber start functioning in June.

A Chamber suggested project, headed up by Bud Stewart of McMahon's, had business houses stringing tree lights in front of their places of business. This added to the festive holiday air.

A live tree, beautifully decorated was planted at the Broadway-Imperial crosswalk by the Grove Business Women's League. This venture has an added salutary effect of perpetual beautification of an area that was sorely in need of it.

Jim Pearce, meanwhile, had scaled his building and erected a well lit Xmas display then clambered down to help Roy Nielsen string lights along the palm trees on Main Street north from the Justice Court.

In the area towards the Shopping Center and Browne's Refrigeration, oversized tree lights are strung in a graceful arc from business buildings to the palm trees lining the street. From a public address system at Davis Market continuous holiday music flows.

San Miguel Students In Spelling Review

Mr. Strawn's 4th and 5th grade combination class has found by recent tests that they are remembering their words well. After a test on 40 words the class median was found to be 38 in the 5th grade and 37 in the 4th grade.

The 40 words were the more difficult words of the approximately 300 words they have had so far this year.

Atomic Force Christian Science Lesson-Sermon

Is blind atomic action the force that founded the earth and the universe? Or is there not a great intelligent force that evolves all things? Searching questions such as these are discussed in the Sunday Lesson-Sermon entitled "Is the Universe, Including Man, Evolved by Atomic Force?" in all Christian Science churches. "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens," says the Golden Text from Proverbs (3:19).

**Lutheran Church
Receives Organ**

An Electric Organ is being given as a gift by a family of Lemon Grove Lutheran Church, located in Monterey Heights.

The organ will be placed in the church in time to be used for the various Christmas Services.

In addition to the Organ Gift, the Congregation is giving money gifts for the purpose of placing Asphalt Tile on the floors of the church, and for the purpose of adding another Sunday School room or two to the church wing.

The men of the Congregation are gathering this coming Saturday to lay the tile. Only the Church Auditorium and Overflow Room will be laid at the present time, but it is expected that the Mother's Room, Sunday School Rooms and Kitchen Tile will be in place by Christmas.

Sometime after the first of the year, plans will be made for the erection of the Sunday School rooms that will form a part of an educational wing, that upon completion will extend toward Alton. This will provide for an enclosed patio when the future main church edifice is to be added to the present church plant.

The new first year Brownies of the second grade Troop No. 375 have real Christmas spirit. They have decided to buy and wrap gifts for underprivileged children. Their money was earned by selling Christmas cards and wrap.

The gifts will be given to the Lemon Grove Nurse who will distribute them. The Brownies are having a Christmas party too, with decorated tree, after their party they are giving the fully decorated tree to the Nurse to be presented along with their other gifts.

Furniture Fashions

Remember the old tea wagon that used to grace nearly every dining room? Well, it's back in a wonderfully new guise and is more beautiful and infinitely more utilitarian than ever before. It has a number of descriptive new names, too, including "hostess cart," "brunch wagon," and "snack truck." The model shown above is black walnut with cherry trim. Combining two different woods in the same piece of furniture is a new style note. This hostess cart makes it possible to put an entire meal on wheels. The drop leaves provide a surprising amount of table surface. It is ideal for TV parties, as well as for more formal entertaining.

Inside Goodwin

by Max Goodwin

This is the 161st anniversary of the Bill of Rights, the first ten Amendments to the Constitution, which became effective on December 15, 1791. In all that long while, we Americans, generation after generation, have become so accustomed to living under the freedoms guaranteed by the Bill of Rights that we may incline to take them for granted and to let the day go by without even bothering to reread them.

Only last month, in Czechoslovakia, 11 men were hanged after conviction on various incredible charges in a trial in which their only "right" was to plead

guilty. They knew their role in advance. They, as well as their accuser-judges, were Communists. Some of them had been in high political offices. They knew what to expect. Their own attorney represented the prosecution. They "confessed" to get home, and how to get along with the inevitable over with in the prescribed manner of their brutal society.

How strange it would have sounded in that courtroom to hear these excerpts from the Bill of Rights read from the judges' bench: "No person . . . shall be compelled in any criminal case to be a witness against himself."

The accused shall enjoy the right to a trial by an impartial jury . . . and to be confronted with the witnesses against him. When a school district has 900 to have compulsory process for or more pupils in average daily obtaining witnesses in his favor, attendance, it is mandatory that and to have the assistance of a special training class be established for his defense.

A rereading of the ten brief paragraphs that comprise the Bill of Rights should be enough to make every American grate. Next a group and an individual intelligence test is administered to them into imperishable law. It should also remind Americans that they have one of the most precious heritages that the minds of men ever created and secured for a Nation since the beginning of time.

Special Classes for Grove School

(This is the fourth in a series of articles relating to special services in the Lemon Grove School District.)

This year for the first time a special training class has been established in the school district. This type of class is set up for children who are slow to learn.

Rather than have them fall year after year, a special curriculum is developed to take care of their needs. This class does much work of a practical nature, what to expect. They know their own attorney. They discuss and practice personal health habits, care of the body, and how to get along with the inevitable over with in the prescribed manner of their brutal society.

In addition to the things listed above, these pupils also receive instruction in the fundamental skills at their individual level. In a special class, limited to a maximum of 15 pupils, each is given considerable individual attention. Although the cost of this class is slightly higher than a regular class, a good part of the extra expense is borne by the state.

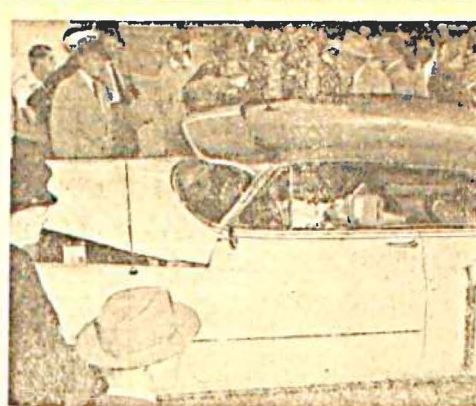

When a school district has 900 to have compulsory process for or more pupils in average daily obtaining witnesses in his favor, attendance, it is mandatory that and to have the assistance of a special training class be established for his defense.

Children selected for this class are first recommended as needing special help by their teacher. Next a group and an individual intelligence test is administered to them into imperishable law. It should also remind Americans that they have one of the most precious heritages that the minds of men ever created and secured for a Nation since the beginning of time.

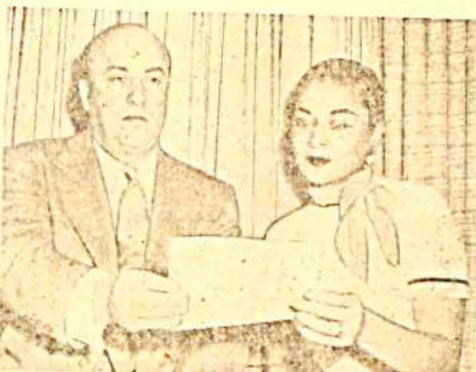

Special Classes for Grove School

(This is the fourth in a series of articles relating to special services in the Lemon Grove School District.)

This year for the first time a special training class has been established in the school district. This type of class is set up for children who are slow to learn.

DOCTOR KILLED BY GUNMAN . . . An innocent victim of a berserk gunman, Dr. J. V. Quinn, 55, slumps in his car after being shot through the heart as he drove into a busy Los Angeles intersection just as Richard Holbrook whipped out a pistol and fired into a crowd. The doctor died instantly and his car swerved into a building. The gunman was caught by police.

FEDERAL GRAND JURY WITNESS . . . Abraham Teitelbaum, Chicago attorney, has been subpoenaed to appear before a special federal grand jury investigating income tax shakedown. With him is his wife Shyri who was also ordered to testify. Teitelbaum stated that two men demanded \$500,000 payment to erase an income tax case against him.

proved that our high school would have as broad a curriculum as other schools but it was charged that we would have to omit such subjects as physics, geometry, chemistry and the like. When we brought out enrollment figures proving the need for a high school, we were called un-American. We presented facts that proved Grossmont had no plans for a school here and we were told that no school would be needed!

The main issues became so confused that consideration of our children's welfare was lost in a fog of half truths, a miasma of misleading charges and a wall of veiled threats. I cannot help but wonder what these people will say when Lemon Grove is asked to subscribe to a bond issue for a high school in El Cajon.

Many of our fine citizens join me in the spirit of this letter in commendation of your newspaper.

Sincerely,
John B. Dail
